Fatoumata SANE

Master degree's Student

Profil/About Me:

Data Science graduate student with a foundation in statistics, programming, and data analysis. Familiar with machine learning, predictive modeling, and data visualization. Currently pursuing a Master's in Cooperative Big Data at AIMS, seeking internship opportunities to apply analytical skills to real-world challenges.

EDUCATION

Master Cooperative (Option Big Data)

African Institute for Mathematical Science (AIMS) | (in progress)

Bachelor's degree in Data science

Mohammed VI Polytechnique University (IST&I - UM6P) | 09/2021 - 07/2024

Bachelor's Degree in Experimental Science (S2)

Lycée Sergent Malamine Camara | 11/2020 - 08/2021

WORK/PROJECT EXPERIENCES

Ben Guerir, Morocco

College of Agriculture & Environmental Science (UM6P-CAES) | 04/2024 - 07/2024

Data Science Intern: Acquired and preprocessed spectral data using FieldSpec 4 for soil property determination. Developed predictive models using PLSR and Random Forest algorithms with VIP scores. Optimized models and presented technical findings to the research team.

Ben Guerir, Morocco

MAScIR (Moroccan Foundation for Advanced Science) | 07/2023 - 08/2023

Research Intern: Synthesized microcapsules with rejuvenating agents for aged bitumen and analyzed material properties. Studied soil nutrient measurement methods and analyzed data using statistical techniques across two research centers.

SKILLS ACHIEVEMENT

- ✓ Python (pandas, NumPy, etc..)
- ✓ Machine Learning (PLSR, RF)
- ✓ SQL(MySQL,Oracle)
- ✓ Statistical Analysis & Modeling
- ✓ Data Visualization
- ✓ TensorFlow / Deep Learning
- ✓ Big Data Analytics
- ✓ Team Collaboration & Adaptability
